#### ***Tony Booker - Principal***

"I would like to assure you that when you choose to join our school, no matter what your potential, no matter what has gone before... we will look after you. One of the things I really believe in is that our school doesn't enrol students, we enrol families. Parents and caregivers are always welcome in our school, and I enjoy meeting with you, and taking a personal interest in your journey."

#### ***Cole Anderson - Head of School 2023***

"Rangitikei College is a school that knows no limits. As a kura we thrive with the support and encouragement that staff and students give. Each student in our school is unique and is pushed to thrive for excellence in every event or subject they choose to take part in. Through my time at Rangitikei College I have been given many opportunities to achieve and to grow in our space, and this has shaped me into the person I am today. With our communal values our students have the opportunity to thrive, grow and better themselves.

Ad Altiora, Mauri Ora, Towards higher things, flourishing."

#### ***Amy Gust- Head of School 2023***

"Rangitikei College is a community in which I have been provided a range of opportunities to extend beyond my comfort zone. I have learnt to build connections with others both inside and outside of our school community. I have experienced extensive growth and development through the support from both the staff and students. Our small class sizes and school values allow for students to flourish in all aspects of their education. We have the opportunity to be successful and proactive individuals. We pride ourselves in the work we have completed and the connections we have strengthened.

Ad Altiora, Mauri ora."

# Responsible User Agreement

## Digital Citizenship at Rangitīkei College

When using information and communication technologies (ICT) at Rangitīkei College I will always be a good digital citizen, and I will demonstrate the school values of Respect, Endeavour, Aroha and Perseverance in my use of digital technologies.

This means that:

**I will be a confident and capable user of ICT.**

*I know what I do and do not understand about the technologies that I use. I know when and where I am allowed to use technology. I will get help where I need it.*

**I will use ICT for learning as well as other activities.**

*I understand that technology can help me to learn. I also know it can also be used for entertainment, to talk to people, to buy and sell things and to have my opinion heard. I know when and where it is OK to do each one. I will seek help if I am unsure.*

**I will think carefully about whether the information I see online is true.**

*I know that it is easy to put information online. This means that what I see is not always right. I will always check to make sure information is real before I use it. I will also give credit for using information that is not my own in school work.*

**I understand that I may experience problems when I use technology but that I will learn to deal with them.**

*I understand that there will be times when technology may not work as I expected it to, or that people may be mean or unkind to me online. When these things happen, I know that there are ways I can deal with it. I also know there are people I can go to, to get help if I don't know what to do next.*

**I will always use ICT to communicate with others in positive, meaningful ways.**

*When people talk online the things they say can be quite different from a conversation they might have if they were sitting next to each other. I know that I must try to understand what people are saying before I react to them. If I am not sure, I can ask them or someone else to explain.*

*I will always talk politely and with respect to people online. I know that it is possible to bully or hurt people with what I say and do on the internet, and I commit not to do that. I will think about the effect that my actions have on other people.*

**I will be honest and fair in all of my actions using ICT.**

*I will never do anything online that I know will hurt anyone. I will make sure what I do is not against the law. I will make sure that my actions don't break the rules of the websites that I use. When I am not sure about what I am doing I will ask for help.*

**I will always respect people's privacy and freedom of speech online.**

*I understand that some information is private. I will be careful when using full names, birthdays, addresses and photos or videos of other people and of my own. I also know that I will not always agree with what people say online but that does not mean that I can stop them or use it as an excuse to be unkind to them.*

**I will help others to become a better digital citizen.**

*Being a good digital citizen is something that we all have to work at. If I know that my friends are having problems online, I will try to help them. If I see that someone is being unfairly treated online, then I will speak up rather than just watch it happen.*

### STUDENT DECLARATION

I understand that these guidelines for responsible use are to be followed when using any technology whilst at school or whilst on any school activity. I am aware that this may include the use of a device that the school does not own.

I understand that if I breach this responsible use agreement, I may lose access to school ICT services including the use of the internet, on school owned devices or any personally owned device used at school. I am also aware face any school disciplinary process that may result from this misuse.

## Low Risk Blanket Consent

### Privacy Statement:

Please note: the personal information being collected on this form is for the purpose of running EOTC events. It won't be used or disclosed for any other purpose except in accordance with the Privacy Act 1993. You have the right under that Act to access and seek correction of the information from the school.

Student name:

Year level:

Parent/caregiver:

### Consent statement:

☐

I agree to my child taking part in 'low risk' EOTC events as described on the back of this form. I acknowledge the need for my child to behave responsibly on these events.

☐

I understand that there are risks associated with involvement in any EOTC events and that these risks cannot ever be completely eliminated.

☐

I understand the school will identify any foreseeable risks or hazards and implement correct management procedures to eliminate or minimise those risks.

☐

I acknowledge that in order to gain a better understanding of the risks involved I am able to ask any questions of the school about the activities in which my child will be involved.

☐

I recognise that participation in any EOTC activities is voluntary. My child and I both understand that they may withdraw from any activity if they feel at risk in consultation with the person in charge.

Signed:

Date:

Parent/caregiver

## Explanation

This form is seeking your permission for your child to attend 'low risk' educational activities beyond the school site and to avoid you having to provide consent to these each time.

'Low risk' activities are day trips using school, staff or public transport to events or locations to undertake routine activities that would not normally be a higher risk than what would be expected on the school site. Examples of these activities include:

- visits to other schools, civic amenities (eg museum, art gallery)
- participating in sports events
- field trips to, for example, the beach, bush, farms
- visits to 'Careers Expos'
- swimming in supervised pools

**Where an event involves risk exposure greater than what would typically be the case at school, (such as adventure activities, hazardous environments, travelling significant distances, or if the event continues overnight), specific and individual consent will still be required.**

This 'blanket consent' may be withdrawn at any time following written instruction to the school. Details on this form will remain confidential to school staff associated with supervising activities on EOTC events.

RANGITIKEI COLLEGE

## Rangitikei College Sports Questionnaire 2024

Rangitikei College is keen to promote active engagement with sport. We aim to keep any fees to an absolute minimum - and note that the school pays most sports fees for Year 9 students. Sporting participation in New Zealand falls steeply when students move from primary to secondary school - and we are trying to avoid that happening here.

The following questions are designed to help us prepare for your child's entry to Rangitikei College sport. Please note that there is no commitment implied, so by indicating past sporting participation it does not mean that we are expecting that must continue.

NAME: \_\_\_\_\_

### Sport participation *at* school.

## FAQ - FOR FAMILIES / WHANAU + STUDENTS

### What online activity can school staff see for students when using a school account?

- Searches
- Apps & Websites
- Videos
- Google Apps for Education (G-Suite)

### What about phones?

Phones connected to the school network - are filtered and protected at school (if the school has enabled this with Linewize, and if applicable per school policy).

### Is it possible for the school to see school account activity (websites accessed) at home for students?

Yes (if the school has enabled this with Linewize).

### How does that work?

Filtering protection at home is via a Google Chrome extension that loads when you are signed into your Google Chrome browser with your school Google account on a laptop/computer. (Not phones / tablets)

### Does this work for BYOD devices at school?

Yes - if the school manages these or has set this protection service up.

### Can teachers view students' computer screens at home?

Yes - Student screens can only be viewed from home by a teacher in Classwize **only during learning hours set by the school.** (If the school has enabled this with Linewize).

### What does that mean for other household members?

Please refer to our school's specific student ICT policy/digital agreements. It is good practice, on shared devices, that other family members sign out of the school account and use a personal account to avoid the school's protective filtering.
